New Pricing Plans Design

Overview:

A web service company offering memory space, plugin templates, and domain services is launching a new set of pricing plans. The plans will feature three distinct options: **Basic, Standard, and Business**. The company is seeking a Web Designer to create a visually engaging and user-friendly pricing plan section for their website. The design should emphasize each plan's details and features using colors, and layout.

Mission:

As a Web Designer, your task is to design a sleek and professional pricing plan section using only **HTML and CSS**. Each pricing plan will be in its own box with a slightly rotated header and body for a modern look. The boxes will display the plan name, price, features (like **memory space, plugin templates, speed access, domain availability, etc.**), and a distinctive button. On hover, the plan's header should slightly rotate in the other direction. The design must be visually appealing and maintain a cohesive aesthetic throughout the pricing section.

Useful Hints:

- Use your knowledge of HTML and CSS to craft a unique pricing plan layout.
- Refer to the provided color scheme for a polished look:
 - Background Color: **#a199ff** (soft background color for the page)
 - Header Background Color: **#6e07ae** (vibrant purple for the header)
 - Upper Header Color: **#9522ea** (slightly lighter shade for upper elements)
 - Body Background Color: **#fff** (white for the main content area)
 - Text Color: **#5c5c5c** (gray for main text)
 - Button Color: **#fb36fe** (highlight the call-to-action button with a pink hue)
- Heart icon used: **♥**

Pricing Plan Details:

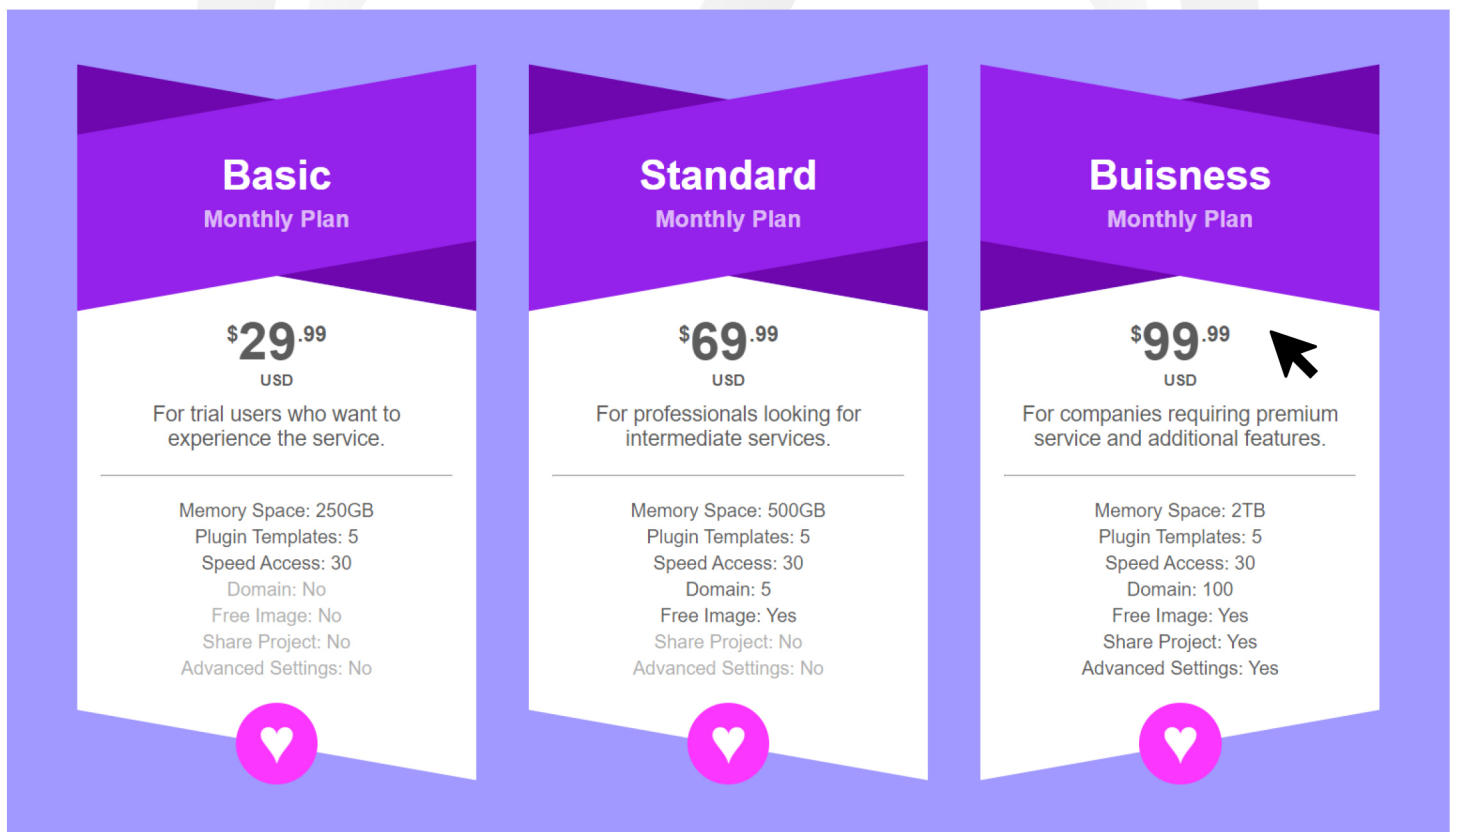

- **Basic Plan (\$29.99):** For trial users who want to experience the service.
- **Standard Plan (\$69.99):** For professionals looking for intermediate services.
- **Business Plan (\$99.99):** For companies requiring premium service and additional features.

Bonus Part - On Hover:

When a user hovers over any of the plans:

- The plan's header should slightly rotate in the other direction.

On Hover any plan:

Expected Output:

- A clean, elegant pricing plan section with three distinct options.
- The design must be implemented using only HTML and CSS, with no images or JavaScript required.

Basic

Monthly Plan

\$29.99
USD

For trial users who want to experience the service.
