Code Challenge Championship

Mission 1

Quick Reservation Form

Quick Reservation Form

Overview:

A marketing company is enhancing their website to streamline user interactions and make it easier for potential clients to connect with them. They need a well-designed reservation form that aligns with their brand identity and provides a seamless experience for users. This form will be used to collect essential information such as name, email, phone number, website link, and an additional message if needed. The company is looking for a skilled Web Designer to create this form.

Mission:

As a Web Designer, your task is to design a user-friendly contact form that integrates smoothly into the marketing company's website. The form should be aesthetically pleasing, easy to navigate, and consistent with the company's branding. The design must be implemented using HTML and CSS, ensuring that the form is both functional and visually appealing.

Useful Hints:

- Use your HTML and CSS skills to structure and style the form.
- Ensure that the design aligns with the following color scheme:
 - **Body Background Color:** #0cf (creates a vibrant, welcoming background)
 - **Container Background Color:** #f9f9f9 (provides a clean, neutral backdrop for the form)
 - **Heading Color:** #f96 (adds a striking accent to highlight important elements)
- Include the following form fields:
 - Name
 - Email
 - Phone Number
 - Website Link (optional)
 - Additional Message (optional)

- Aim for a clean and modern design that enhances user experience and encourages form submission.

Expected Output:

1. A fully functional and visually appealing contact form that fits seamlessly into the company's website.
2. The form should be designed using only HTML and CSS, without relying on external libraries or images.

Mission 2

Beauty Brand Landing Page

Beauty Brand Landing Page

Overview:

A beauty brand is launching a new website to enhance its online presence and connect with potential customers. The new website will feature a modern, elegant design that aligns with the brand's identity. It must be responsive and provide a seamless experience across both desktop and mobile views. The website should have unique styles for desktop and mobile views as specified in the provided screenshots.

Mission:

As a Web Designer, your task is to design and develop a visually stunning and functional beauty brand landing page. The website should be responsive, ensuring an optimal viewing experience on both desktop and mobile devices. You will need to implement the design using HTML and CSS, ensuring that each section of the site is both aesthetically pleasing and consistent with the brand's image. The design should reflect the beauty brand's elegance and sophistication, with different styles for desktop and mobile views as outlined in the screenshots.

Design Specifications:

- **Header Background Color:** #4f2f60 (a deep, rich purple that exudes sophistication)
- **Second Title Color:** #3b3b58 (a dark, muted blue for a refined look)
- **Boxes Background Color:** #e7e7e7 (a soft, light gray for a clean, modern backdrop)

Icons:

- **Natural Ingredients Icon** ♣: ♣
- **Proven Results Icon** ♥: ♥
- **Inclusive Beauty Icon** ♠: ♠

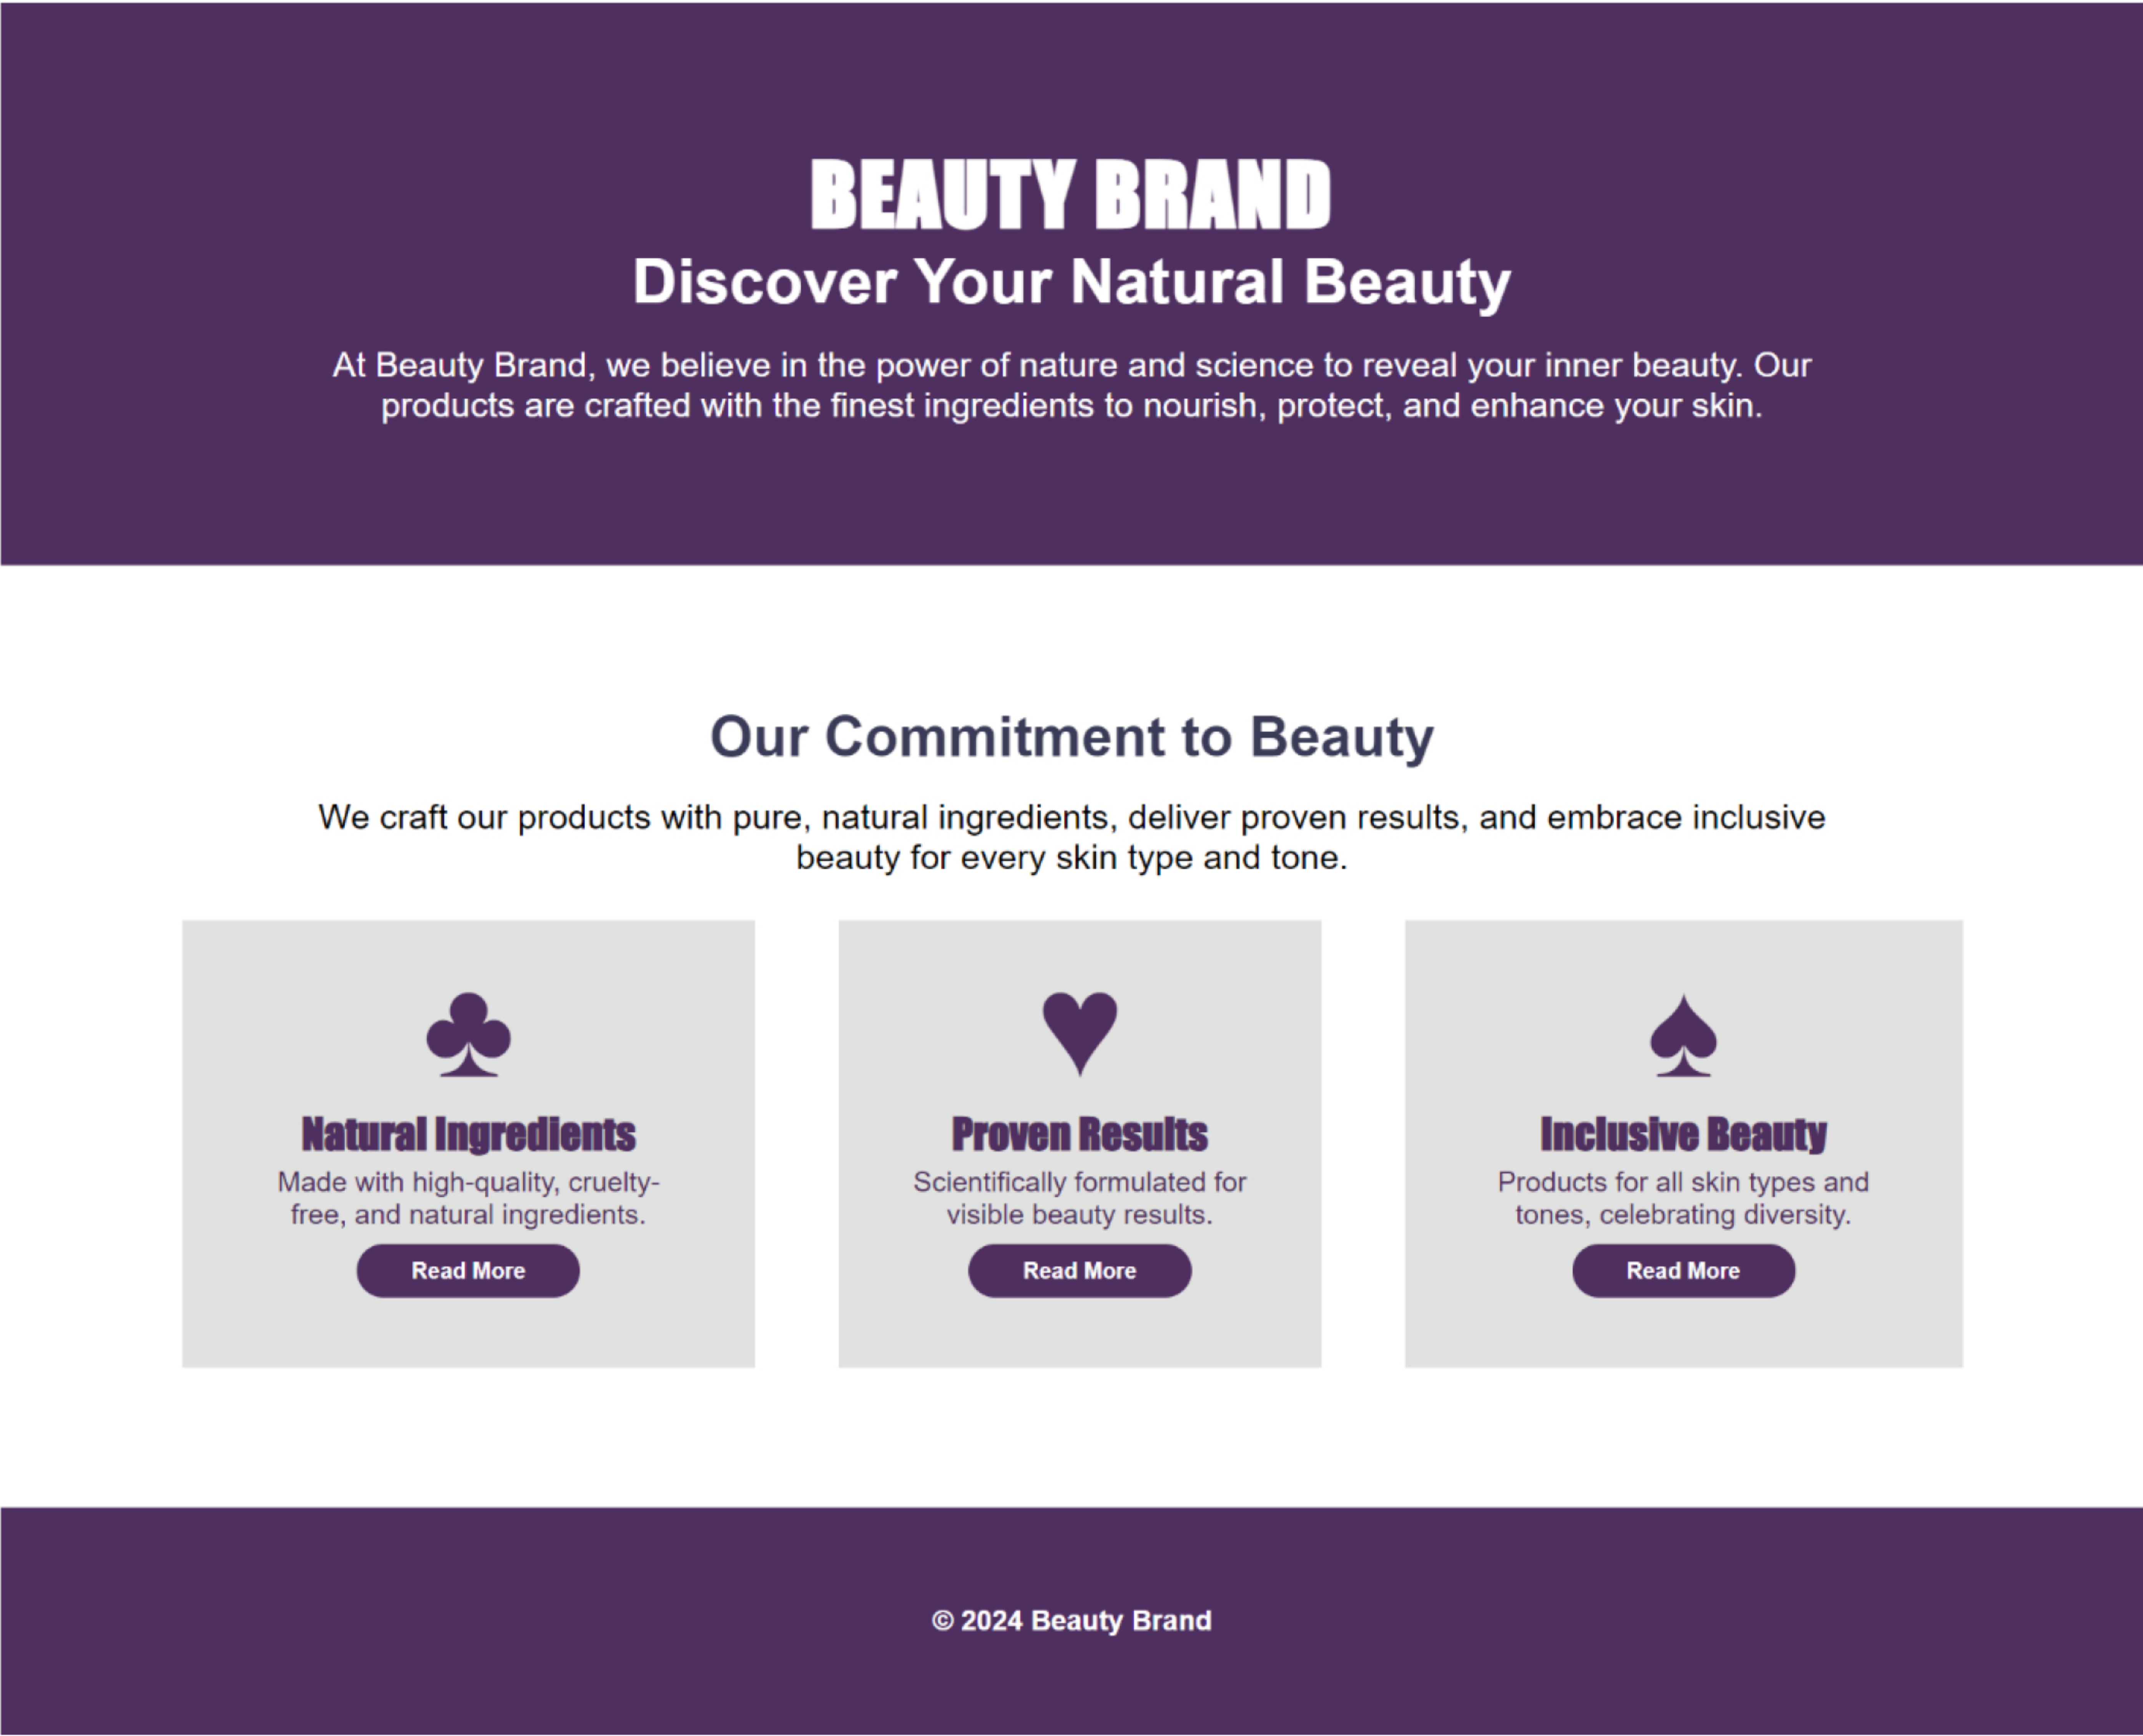

Useful Hints:

- Use HTML and CSS to maintain a cohesive look and feel across all pages and devices.
- Ensure that the website is fully responsive and adjusts seamlessly to different screen sizes, from desktops to mobile phones.
- Align with the brand’s color scheme for a unified aesthetic. Consider using elegant and soft tones that reflect the beauty industry.

Expected Output:

1. A fully responsive and visually appealing beauty brand landing page designed using HTML and CSS.
2. The website should be functional across all devices, with distinct styles for desktop and mobile views, as demonstrated in the provided screenshots.

Desktop Design:

Mobile Design:

- **Layout:** Featured boxes should be vertically aligned to fit the screen width. The boxes should stack on top of each other, allowing for easy scrolling.
- **Spacing:** Reduce the spaces around each section to maximize screen real estate. Adjust margins and padding to ensure that each box remains distinct but compact enough to fit comfortably on smaller screens.

BEAUTY BRAND

Discover Your Natural Beauty

At Beauty Brand, we believe in the power of nature and science to reveal your inner beauty. Our products are crafted with the finest ingredients to nourish, protect, and enhance your skin.
